Co-Organizer

Flavour & Fragrance Development Centre, Kannauj

In Association With

Fragrances & Flavours Association of India, Mumbai

Essential Oil Association Of India, Noida

Sugandh Vyapar Sangh, Delhi

Stakeholders

Academicians

Industry

Farmers

Others

Context & Rationale

The North East Aroma Conclave 2025 seeks to unlock the potential of the region's rich biodiversity in aromatic plants by fostering a sustainable and high-value industry. With its unique climate, North East India is home to a wide array of aromatic plants that can be used in essential oils, perfumes, wellness products, and food flavoring. However, challenges in research, infrastructure, and market access have limited the sector's growth. This Conclave will bring together farmers, entrepreneurs, researchers, and policymakers to explore opportunities for value-added products, promote sustainable agricultural practices, and integrate local producers into global markets. It will also encourage innovation, preserve traditional knowledge, and advocate for policies that support the development of the aromatic plant industry, positioning North East India as a key player in the global market.

About CSIR-NEIST:

The CSIR-North East Institute of Science and Technology (NEIST), Jorhat, is a premier multidisciplinary research institute under the Council of Scientific and Industrial Research (CSIR), India. Established in 1961, it focuses on leveraging science and technology for societal and industrial development, particularly in India's northeastern region. Focused on science-driven societal and industrial development, particularly in northeast India, its key areas include drug development, sustainable agriculture, advanced materials, geosciences, energy resources, and biotechnology. With over 120 technologies developed and transferred, CSIR-NEIST supports industries, promotes entrepreneurship, and fosters innovation through training, workshops, and collaborations.

Registration:

The registration form can be filled using the link provided:
<https://forms.gle/bnrctFEXVgdFT7nh6>

Roadmap & Weather:

CSIR-NEIST is well connected by road, rail and air route. The conclave venue is located 11.6 km from Jorhat airport, 8 km from Jorhat railway station. Weather during the conclave is expected to be cool and pleasant with minimum temperature of 11 degree celsius to maximum temperature of 25 degree celsius.
