

Visit of Dr Jalaja S Kumar, Director, Central Muga Eri Research & Training Institute to STINER facility

Dr Jalaja S Kumar, Director, Central Muga Eri Research & Training Institute (CMERI) along with two scientists of the institute Dr Mahananda Chutia and Dr Manjunath RN visited CSIR-NEIST, Jorhat on 19 June, 2020 to see the facilities and activities of STINER Project. Dr Kumar and the team of CMERI was welcomed by Dr G. Narahari Sastry, Director, CSIR-NEIST, Jorhat and briefed about the activities of CSIR-NEIST and STINER project. During discussion, Dr Sastry mentioned the importance of collaboration between the two institutes and suggested to signed MoU. Later on, Dr Kumar visited different facilities of the CSIR-NEIST. She has been given a brief presentation about the project STINER and its present activities and discussion were held about the post cocoon technologies available with CMERI and its prospect of showcasing under STINER projects for sericulture farmers and entrepreneurs. Dr Kumar committed to send the information of available technologies to CSIR-NEIST for considering under STINER project and to extend cooperation on sericulture activities under the Project. She and her team also visited some STINER activities like Bamboo skill development centre, Orchid germplasm bank, muga silkworm host plant germplasm farm, Technology shed etc. She satisfied with the activities of STINER and assured for cooperation.

Felicitation of Dr Jalaja S Kumar, Director, CMERI by Director, CSIR-NEIST
